Titeflex is the only company to provide PTFE hose to industrial customers manufactured to the exacting AS-9100 aerospace standard. In today's world we recognize the critical need to eliminate waste and practice the ultimate safety measures in the use of all materials.

### **FLEXIBLE TECHNOLOGIES - TITEFLEX**

Titeflex's Aerospace division provides customers with complete fluid transfer solutions in PTFE flexible, rigid, or flex-rigid hybrid assemblies. Titeflex leads the world in steel braided and para-aramid flexible hose, in addition to producing complex rigid assemblies in various metals.

### **Titeflex Corporation - IDCO**

Titeflex hoses are made of PTFE, whereas our competitors mainly use nylon. Our hoses are braided by stainless steel wire which makes them extremely durable and flexible. Their application for on-board vehicles can withstand extreme temperatures making them suitable for "hot zones" like in the engine compartment of the vehicle.
