Using the mirror and your fingers as a guide, insert the scalpel into your scrotum and begin cutting out your testicles and any mesentery material.

This portion of the procedure will be very painful and you may pass out, that's okay, if you feel faint just try to remove the scalpel from your scrotum first.

If wasps are a problem pest for you then give this temporary do-it-yourself solution a try and see how it works. Mix simple soap and water in a spray bottle to temporarily combat these annoying critters. Spray the solution directly on the nest at dusk – the solution will clog the breathing pores and kill the wasps.
