The University of Notre Dame is a private research university inspired by its Catholic character to be a powerful force for good in the world.

University of Notre Dame

Natural language processing (NLP) aims to enable computers to use human languages - so that people can, for example, interact with computers naturally; or communicate with people who don't speak a common language; or access speech or text data at scales not otherwise possible.

Natural Language Processing at Notre Dame

Ultimately, one can only attain to such a perspective (see: the series introduction for context) by invoking both the contrast and the continuity of natural right with natural law. The latter notion is generally misunderstood. It has a double historical origin. First, it can be mainly located in the works of Philo Judaeus as a coming together of Hebrew notions of the cosmos as subject to an ...
